

# **New Book Explains Fast Track to U.S. Residency Through Investment Visa Program**

***Green Card via the Red Carpet* by Andrew Bartlett and Stephen Parnell Outlines the Positives and Negatives of the EB-5 Visa Program Providing Green Cards & Permanent Residence for Foreign Citizens**

BOCA RATON, Fla.--*Green Card via the Red Carpet: A Comprehensive Guide to Immigrating to the U.S. by Investing in an EB-5 Regional Center* by Andrew Bartlett and Stephen Parnell provides vital information on visa programs using job creation that allow foreign citizens to live, work, or retire in the United States.

“This is the only book written for the users of the EB-5 visa, it is for the public at large and is written with that in mind”

According to Bartlett and Parnell, one of the fastest and safest routes to earning permanent residency in the USA is through an EB-5 visa, an immigration visa designed to allow foreign nationals to invest \$500,000 into a government designated EB-5 regional center program and gain legal, permanent residence for life. The authors contend that EB-5 visas offer an opportunity for qualified individuals to gain entry and establish a new life in America.

“This is the only book written for the users of the EB-5 visa, it is for the public at large and is written with that in mind,” Parnell says. “As first-generation immigrants to the United States, we have great empathy for the readers and a unique perspective on the problems faced by new immigrants.”

The book features descriptions and implications of the various EB-5 programs. Designed to guide immigrants through the entire relocation process, the book offers step-by-step instructions, tips and techniques to help foreign citizens secure residency.
